Some geospatial data on this website is provided by geonames.org. So, sorry to be picky but the statement DLC purchased through Origin is not compatible with Steam.. I thought there are some files in the Config folder that need to have edits when installing the DLC; which is why a simple copy-paste wouldn't work.. Originally posted by Hexprone: Would the Steam version of the game be messed up by adding on a version of Shadow Broker that you either purchased on Origin or, if it's not available there, acquired by other means DLC purchased through Origin is not compatible with Steam.
